

INSTALLING SINGLE SWITCH MOUNT PLATE

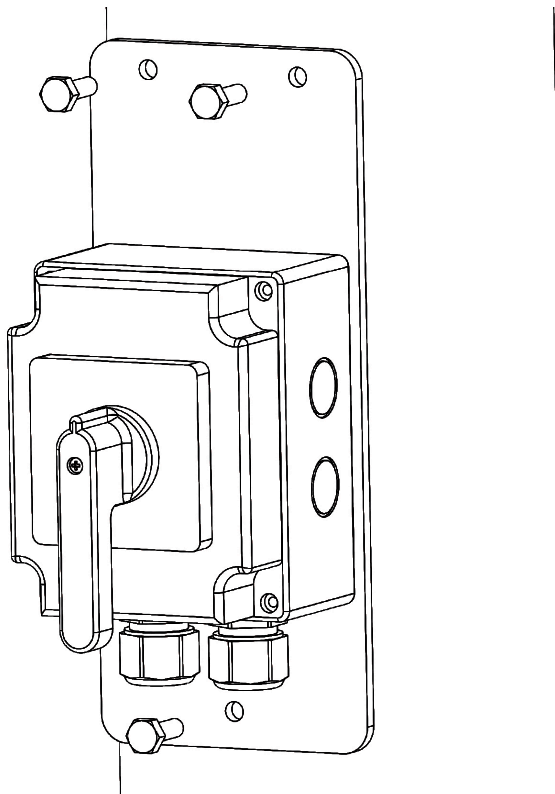

STEP ONE:

Using the included # 10 screws, mount the switch by lining up the switch holes and tapping the screws into the switch through the aluminum plate

STEP TWO:

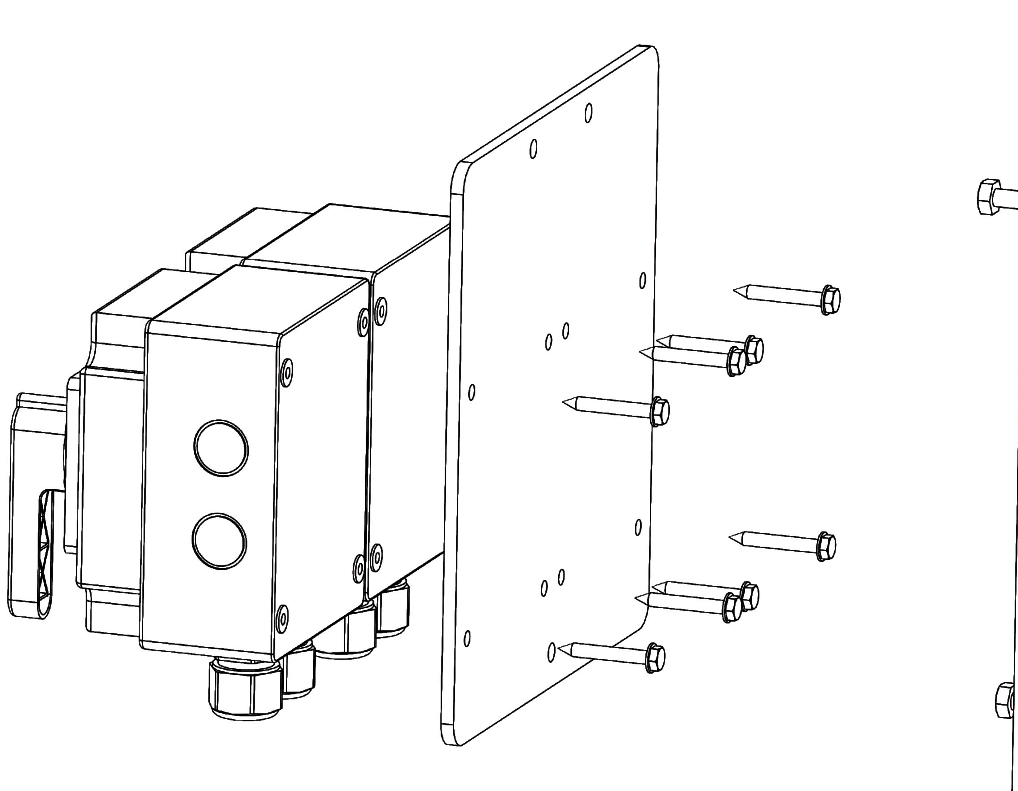

Mount the plate with the switches attached to a piling or the structure out of reach from the boat.

INSTALLING DOUBLE SWITCH MOUNT PLATE

STEP ONE:

Using the included # 10 screws, mount the switch by lining up the switch holes and tapping the screws into the switch through the aluminum plate

STEP TWO:

Mount the plate with the switches attached to a piling or the structure out of reach from the boat.
